

I am a regular listener to K-Love radio. K-love is the only station in our area that plays Contemporary Christian Music on the FM airwave. As a Christian, I don't listen to any other type of station. We have an AM station, but they generally broadcast teachings and views that I don't agree with. K-love allows us to have the quality programming that is generally only afforded larger cities. I know that I can always turn on K-love without fear of what my granddaughter will hear. In this era of trashy music, so-called "public radio" and gangsta rap, K-love has been a breath of fresh air. Please afford us the opportunity to continue to listen to our radio station. Displacing it with an LPFM broadcaster would silence the only really good thing on the radio in our area. Please consider those of us who live in the minority in the state of Utah...K-love is the only thing that keeps me going some days. Thanks for listening.
